PITFALLS IN DISCOVERY AND HOW TO AVOID THEM

Discovery, including electronic versions, can raise many ethical, legal and cost-saving questions for even an experienced litigator. Recent case law provides examples of the different pitfalls that attorneys and paralegals can avoid with careful planning and a discovery plan at the early stages of litigation. This presentation will provide a snapshot of the pitfalls that attorneys and paralegals should work to avoid.

Presenter Robert Lynch has extensive experience in the representation of design professionals and contractors in litigation, mediation, arbitration and claims before the California State Administrative Boards. He also represents small businesses in contract disputes and in the defense of bodily injury and premises liability claims. Mr. Lynch was admitted to the State Bar of California in December of 1997 and to the United States District Court for the Central District of California in 2000. He received his Juris Doctor degree in 1997 from the Georgetown University Law Center, and graduated cum laude from the University of California, Riverside, in 1994.

This activity has been approved for minimum continuing legal education by the State Bar of California in the amount of 1 hour of participatory general credit. ICAP is a State Bar of California Approved MCLE Provider, #11452.
